INTRODUCTION

RUDRA PHARMA MACHINARIES

We Make Better.

At Rudra Pharma Machinaries, we create advanced, CGMP-compliant machines that enhance efficiency, ensure safety, and deliver superior quality. Our innovative solutions empower businesses to grow confidently, streamline production, and achieve sustainable success.

With a focus on precision, innovation, and reliability, we help industries meet global standards. Partnering with us means investing in technology that drives long-term growth and excellence.

Passion is the key essential force that drives our success it determines everything that we think and do.

Welcome to

Rudra Pharma Machinaries

a trusted leader in advanced machinery for the pharmaceutical, cosmetic, herbal, and chemical industries. We design and manufacture CGMP-compliant machines that meet international quality standards, ensuring production safety, efficiency, and durability. Our innovative solutions cater to diverse industrial needs.

Revolutionizing Innovation

Rudra Pharma revolutionizes production with precision, quality, and innovation.

Powering Performance

Providing solutions, performance-driven machines empower industries.

Maximizing Efficiency

Manufacturing advanced equipment maximizing efficiency and safety.

Built on precision, quality, and innovation, Rudra Pharma Machinaries combines state-of-the-art infrastructure with highly skilled professionals. We focus on delivering technology-driven solutions that help businesses enhance productivity, maintain compliance, and grow with confidence, providing machines that support both small and large-scale production requirements.

Our customer-centric approach and commitment to excellence have earned us a loyal clientele across multiple industries. By continuously advancing our technology and maintaining high-quality standards, we empower businesses to achieve operational efficiency and sustainable growth.

Why Us!

At Rudra Pharma Machinaries, we don't just sell machines—we provide complete, end-to-end solutions that optimize production, ensure quality, and enhance efficiency. Here's why industries around the world trust us for their manufacturing needs:

Quality Assurance – Finest raw materials, strict quality checks, and modern technology for flawless outcomes.

State-of-the-Art Infrastructure – Fully equipped manufacturing unit capable of handling complex projects with precision.

Innovation & Technology – Every machine is engineered for efficiency, automation, and CGMP compliance.

Customer-Centric Approach – Dedicated to long-term partnerships with reliable service and on-time delivery.

Comprehensive Range – From ointment plants to filling machines, we cover the entire production line.

Experienced Team – Industry professionals with unmatched expertise and commitment to excellence.

MISSION

To provide CGMP-compliant, high-quality machines with advanced technology, ensuring customer satisfaction, continuous innovation, and sustainable growth.

VISION

To be a global leader in pharmaceutical & cosmetic machinery by delivering innovative & cost-effective solutions that set new benchmarks in quality.

“

We don't just deliver machines—we deliver complete solutions. From consultation to after-sales service, our team is always ready to go the extra mile to meet challenging demands.

Pharmaceutical Machinery

OINTMENT MANUFACTURING PLANT

Our automatic ointment plants efficiently produce creams, gels, lotions, and biotech products with contamination-free operations.

- Contamination-free operations
- Homogeneous mixing
- Easy cleaning and maintenance

SYRUP MANUFACTURING PLANT

A solution for liquid formulations, our syrup plants are designed with capacities ranging from 300 to 5000 liters. Features include:

- Sugar syrup vessels
- Bag filters
- Advanced homogenizers

STORAGE, MIXING & PILOT VESSELS

Our SS 304/316 vessels are built with jacketed, easy-to-clean designs and capacities from 100 to 5000 kg. They are ideal for:

- Storage
- Mixing
- Pilot batches

CONTRA & PLANETARY MIXERS

Contra & Planetary Mixers – Engineered for high-performance mixing, these machines are ideal for:

- Toothpaste, lotions, creams, gels & ointments
- Efficient blending, Automation features
- Maximum output efficiency

Filling & Packaging Machinery

TUBE FILLING MACHINES

Available in rotary and high-speed linear models, these machines handle laminated, plastic, and aluminum tubes. Key features:

- High precision filling & sealing
- Semi / Automatic sealing, coding, and trimming
- Multiple tube sizes with 5ml to 200ml.

PASTE FILLING MACHINES

From manual to fully automatic models, our paste fillers are suitable for:

- Creams, lotions, gels, and petroleum jelly
- Accuracy,
- Smooth filling
- Servo control systems / Positive displacement

LIQUID FILLING MACHINES

We offer servo-driven and volumetric filling systems tailored for liquids like:

- Syrups, oils, detergents, and paints.
- multi-head options.
- Drip-free nozzles
- Servo / Volumetric models available

POWDER FILLING MACHINES

Designed with auger-based filling technology, these machines are built for powders and granules.

- Pharmaceutical, food & chemical industries.
- Manual, semi-automatic, and fully automatic
- Dust-free design

Specialized Equipment

TOP HOMOGENIZERS

Our top homogenizers are ideal for emulsification and the production of syrups, shampoos, lotions, and homecare products. They ensure:

- Consistent particle size reduction for superior product quality
- Uniform blending for smooth and stable formulations
- Enhanced product stability and extended shelf life
- Optimized performance for both small and large-scale production

PACKAGING CONVEYORS

Our packaging conveyors are built for seamless material handling and smooth product flow across production lines. Key features include:

- Efficient automation to reduce manual labor and human error
- Flexible layouts and modular designs to fit any production setup
- High durability and low maintenance for long-term reliability
- Integration with other machinery for end-to-end packaging solutions

LOBE PUMPS

Lobe pumps are precision-engineered for the hygienic transfer of viscous liquids, creams, gels, and semi-solid formulations. Advantages include:

- Gentle, accurate pumping without damaging delicate products
- Easy cleaning and maintenance to maintain CGMP standards
- Robust construction for long-lasting performance
- Suitable for continuous and batch processing requirements

Specialized Equipment

STORAGE VESSELS

Our SS 304/316 storage vessels provide secure, hygienic storage for raw materials, intermediates, and finished products. Features include:

- Jacketed designs for temperature control and process optimization
- Easy-to-clean interiors for contamination-free operations
- Capacities suitable for small-scale to large-scale production
- Safe and durable construction for long-term operational efficiency

CUSTOM-BUILT MACHINERY

We understand that each client has unique production requirements. Our custom-built machines are designed to deliver:

- Custom solutions for pharma, cosmetic, chemical, herbal, and food industries.
- Optimized efficiency, scalability, and compliance with industry regulations
- Seamless integration into existing production lines
- Innovative designs to meet evolving business and manufacturing needs

Meet Our Teamwork

Talent wins games, but team-work and intelligence win championships.

At Rudra Pharma Machinaries, our skilled team drives innovation, precision, and quality across pharmaceutical, cosmetic, herbal, and chemical industries.

Proud members of PBN (Patel Business Network) and JCI, we combine expertise and ethical practices to deliver reliable, efficient, and client-focused solutions.

THE TEAM.

At Rudra Pharma Machinaries, our skilled and dedicated team drives innovation and delivers high-quality machinery solutions across pharmaceutical, cosmetic, herbal, and chemical industries. Here is our core members

Mr. Sanat Patel Founder Of Rudra Pharma Machinaries

The visionary founder, leads Rudra Pharma Machinaries with dedication and expertise. His commitment to innovation, quality, and customer-centric solutions drives the company's growth, inspiring the team to deliver advanced, reliable, and high-performance machinery across industries.

Mr. Amit Pansuriya C.O Founder Of Rudra Pharma Machinaries

Bringing industry expertise and strategic vision, he drives innovation at Rudra Pharma Machinaries. His dedication to quality and client satisfaction ensures reliable, high-performance machinery solutions across pharmaceutical, cosmetic, herbal, and chemical industries.

Mr. Pravin Thummar Production Lead

With extensive experience in manufacturing and production management, he ensures seamless operations, high-quality standards, and timely delivery of machinery. His expertise drives efficiency, precision, and consistent performance across all pharmaceutical, cosmetic, herbal, and chemical production processes
